

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

BMO Junior Oil Index ETF (ZJO) (the “ETF”)

For the 12-month period ended December 31, 2019 (the “Period”)

Manager: BMO Asset Management Inc. (the “Manager” and “portfolio manager”)

Management Discussion of Fund Performance

Investment Objective and Strategies

The ETF seeks to replicate, to the extent possible, the performance of a North American junior oil index, net of expenses. Currently, the ETF seeks to replicate the performance of the Dow Jones North America Select Junior Oil Index (the “Index”). The investment strategy of the ETF is currently to invest in and hold the Constituent Securities (as defined in the prospectus) of the Index in the same proportion as they are reflected in the Index or securities intended to replicate the performance of the Index. The Manager may also use a sampling methodology in selecting investments for the ETF. As an alternative to or in conjunction with investing in and holding the Constituent Securities, the ETF may invest in or use certain Other Securities (as defined in the prospectus) to obtain exposure to the performance of the Index.

Risk

The risks associated with an investment in the ETF remain as disclosed in the ETF’s most recent prospectus or any amendments thereto and ETF facts. During the Period there were no changes to the ETF that materially affected the overall risk level associated with an investment in the ETF. On February 7, 2019, the Manager reviewed the ETF using the standardized investment risk classification methodology prescribed by National Instrument 81-102 *Investment Funds* and determined that the risk rating of the ETF had not changed. The Manager reviews the ETF’s investment risk level and reference index, if any, at least annually.

Results of Operations

The ETF underperformed the broad-based S&P/TSX Capped Composite Index by 28.34%. However, the more appropriate comparison is to the Dow Jones North America Select Junior Oil Index (the “Index”), due to the concentration of the portfolio in small capitalization oil companies. The ETF returned -5.46% versus the Index return of -5.02%. The change in total net asset value during the Period from approximately \$55 million to approximately \$27 million had no impact to the performance of the ETF.

The difference in the performance of the ETF relative to the Index during the Period (-0.44%) resulted from the management expense ratio (-0.59%), and the impact of sampling and certain other factors (0.15%), which may have included timing differences versus the Index, and market volatility.

Market Conditions

Canadian equities, as measured by the S&P/TSX Composite Index, returned 22.9% over the Period. The Materials sector was bolstered by a rally in gold, which hit a high of US\$1,552 per ounce during the Period. The Bank of Canada maintained its accommodative stance, holding the Canadian policy rate steady at 1.75%. Crude oil prices were up 35% and West Texas Intermediate hit a high of US\$66.30 per barrel. However, Canadian Energy has faced several headwinds this year including export challenges, which put downward pressure on the sector. The Health Care sector was a detractor due to the pull back in cannabis stocks. Labour markets and consumer spending remained strong.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the ETF. If the annual financial statements of the ETF do not accompany the mailing of this report, you may obtain a copy of the annual financial statements at your request, and at no cost, by calling 1-800-361-1392, by writing to us at BMO Asset Management Inc., 250 Yonge Street, 7th Floor, Toronto, Ontario, M5B 2M8 or by visiting our website at www.bmo.com/etflegal or SEDAR at www.sedar.com. You may also contact us using one of these methods to request a copy of the ETF’s proxy voting policies and procedures, proxy voting disclosure record and/or quarterly portfolio disclosure.

Exchange Traded Funds

BMO Junior Oil Index ETF

U.S. equity markets have been incredibly strong as the S&P 500 Index hit an all-time high over the Period. Global trade tensions between China and the U.S. are unresolved, and conversations here are on-going. President Donald Trump's involvement in an impeachment trial has led to turbulence in equity markets and politics have been top-of-mind as the country gears up for a federal election in 2020.

The ETF's exposure to the Oil & Gas Storage & Transportation and Oil & Gas Refining & Marketing sub-sectors contributed the most to performance. Oil & Gas Equipment & Services and Oil & Gas Exploration and Production detracted the most to performance. Individual contributors to performance were led by World Fuel Services Corp. and Gibson Energy Inc. Individual detractors were led by Whiting Petroleum Corp. and Valaris PLC.

Recent Developments

Overall global economic fundamentals remain strong, with low unemployment and improving trade relations. Uncertainties on the horizon include political instability in the Middle East, as well as elections in the U.S., which may steer the course over the next couple years, in terms of the business climate. Canadian equities are expected to do well, if the growth phase of the market continues and the cycle continues to lengthen. Oil prices have struggled to find its footing to start the year and has generally remained range bound. A stronger outlook for junior oil equities will be substantially dependent on a rally in commodity prices.

On January 1, 2019, Marlene Davidge was appointed as Chair of the independent review committee ("IRC"). On April 4, 2019, the ETF's IRC was decreased to four members when Louise Vaillancourt retired as an IRC member.

At the close of trading January 25, 2019, the units of the ETF were consolidated on a 5 to 1 basis. On the next business day, January 28, 2019, the consolidated units began trading. In addition, the ETF's cusip was changed to 05570F303.

Related Party Transactions

The Manager, an indirect, wholly-owned subsidiary of Bank of Montreal ("BMO"), is the portfolio manager, trustee and promoter of the ETF. From time to time, the Manager may, on behalf of the ETF, enter into transactions or arrangements with or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Manager (each a "Related Party"). The purpose of this section is to provide a brief description of any transactions involving the ETF and a Related Party.

Designated Broker

The Manager has entered into an agreement with BMO Nesbitt Burns Inc., an affiliate of the Manager, to act as designated broker and dealer for distribution of BMO exchange traded funds, on terms and conditions that are comparable to arm's length agreements in the exchange traded funds industry. The material terms and conditions of the agreement have been disclosed in the ETF's prospectus.

The Manager has also entered into agreements with certain other registered dealers in Canada to act as dealers for the creation and redemption of units of BMO exchange traded funds.

Buying and Selling Securities

During the Period, the ETF relied on standing instructions provided by the IRC for any of the following related party transactions that may have occurred in the ETF:

- (a) investments in securities of BMO, an affiliate of the Manager;
 - (b) investments in a class of non-government debt securities and/or equity securities of an issuer during the period of distribution of those securities to the public and/or the 60-day period following the distribution period where BMO Nesbitt Burns Inc., an affiliate of the Manager, or any other affiliate of the Manager acted as an underwriter in the distribution;
 - (c) trades in debt securities in the secondary market with BMO Nesbitt Burns Inc., or any other affiliate of the Manager, who is trading with the ETF as principal; and
 - (d) inter-fund trades
- (each, a "Related Party Transaction").

In accordance with the IRC's standing instructions, in making a decision to cause the ETF to make a Related Party Transaction, the Manager, as manager and portfolio manager of the ETF, is required to comply with the Manager's written policies and procedures governing the Related Party Transaction and report periodically to the IRC, describing each instance that the Manager relied on the standing instructions and its compliance or non-compliance with the governing policies and procedures. The governing policies and procedures are designed to ensure that each Related Party Transaction (i) is made free from any influence of BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc. and without taking into account any considerations relevant to BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc., (ii) represents the

BMO Junior Oil Index ETF

business judgment of the Manager, uninfluenced by considerations other than the best interests of the ETF, and (iii) achieves a fair and reasonable result for the ETF.

Management Fees

The Manager is responsible for the day-to-day management of the business and operations of the ETF. The Manager monitors and evaluates the ETF's performance, manages the portfolio and provides certain administrative services required by the ETF. As compensation for its services, the Manager is entitled to receive a management fee payable quarterly and calculated based on the daily net asset value of the ETF at the annual rate set out in the table below.

Ticker	Annual Management Fee Rate %
ZJO	0.55

Brokerage Commissions

The ETF pays standard brokerage commissions at market rates to BMO Nesbitt Burns Inc., an affiliate of the Manager, for executing a portion of its trades. The brokerage commissions charged to the ETF (excluding exchange and other fees) during the periods were as follows:

	2019	2018
Total brokerage commissions	\$ 9,958	17,082
Brokerage commissions paid to BMO Nesbitt Burns Inc.	\$ 1,655	13,370

Financial Highlights

The following tables show selected key financial information about the ETF and are intended to help you understand the ETF's financial performance for the periods indicated.

The ETF's Net Assets per Unit⁽¹⁾

Listed CAD Units	Financial years ended Dec. 31				
	2019	2018	2017	2016	2015
Net assets, beginning of period	\$ 8.19	12.98	17.95	12.66	17.64
Increase (decrease) from operations					
Total revenue	\$ 0.87	0.17	0.15	0.19	0.35
Total expenses ⁽²⁾	\$ (0.31)	(0.09)	(0.09)	(0.10)	(0.15)
Realized gains (losses) for the period	\$ (21.76)	0.07	(0.72)	(0.34)	(5.55)
Unrealized gains (losses) for the period	\$ 22.68	(4.74)	(2.87)	5.79	0.20
Total increase (decrease) from operations⁽³⁾	\$ 1.48	(4.59)	(3.53)	5.54	(5.15)
Distributions					
From income (excluding dividends)	\$ —	—	—	—	—
From dividends	\$ 0.77	0.06	0.05	0.09	0.35
From capital gains	\$ —	—	—	—	—
Return of capital	\$ 0.04	0.02	0.00	0.03	0.02
Total Annual Distributions⁽⁴⁾	\$ 0.81	0.08	0.05	0.12	0.37
Net assets, end of period	\$ 37.90 ⁽⁵⁾	8.19	12.98	17.95	12.66

⁽¹⁾ This information is derived from the ETF's audited financial statements.

⁽²⁾ Includes commissions and other portfolio transaction costs and withholding taxes.

⁽³⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

⁽⁴⁾ Distributions were either paid in cash or reinvested in additional units of the ETF, or both.

⁽⁵⁾ As at the close of business on January 25, 2019, the Listed CAD Units were consolidated on the basis of a 1:5 ratio. The net assets per unit as at December 31, 2019 of \$37.90 is after the consolidation of units as at January 25, 2019.

Ratios and Supplemental Data

Listed CAD Units	Financial years ended Dec. 31				
	2019	2018	2017	2016	2015
Total net asset value (000's) ⁽¹⁾	\$ 27,409	55,285	82,154	52,232	31,263
Number of units					
outstanding (000's) ⁽¹⁾	723	6,751	6,330	2,911	2,470
Management expense ratio ⁽²⁾	% 0.59	0.60	0.60	0.59	0.59
Management expense ratio before waivers or absorptions ⁽²⁾	% 0.60	0.60	0.60	0.59	0.59
Trading expense ratio ⁽³⁾	% 0.03	0.02	0.04	0.05	0.02
Portfolio turnover rate ⁽⁴⁾	% 43.28	54.30	49.08	47.97	76.12
Net asset value per unit	\$ 37.90 ⁽⁵⁾	8.19	12.98	17.95	12.66
Closing market price	\$ 38.10	8.11	12.99	17.95	12.68

⁽¹⁾ This information is provided as at December 31 of the period shown.

⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁽⁴⁾ The ETF's portfolio turnover rate indicates how actively the ETF's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the ETF buying and selling all of the securities in its portfolio once in the course of the year. The higher an ETF's portfolio turnover rate in a year, the greater the trading costs payable by the ETF in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of an ETF.

⁽⁵⁾ As at the close of business on January 25, 2019, the Listed CAD Units were consolidated on the basis of a 1:5 ratio. The net assets per unit as at December 31, 2019 of \$37.90 is after the consolidation of units as at January 25, 2019.

Past Performance

The ETF's performance information assumes that all distributions made by the ETF in the periods shown were used to purchase additional units of the ETF and is based on the net asset value of the ETF.

The performance information does not take into account sales, redemption, distribution or other optional charges that, if applicable, would have reduced returns or performance. Please remember that how the ETF has performed in the past does not indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the performance of the ETF for each of the financial years shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have increased or decreased by the last day of each financial year.

⁽¹⁾ For the period beginning with the performance launch date of May 19, 2010 to December 31, 2010.

Annual Compound Returns

This table compares the historical annual compound returns of the ETF with its benchmark index, the Dow Jones North America Select Junior Oil Index and a broad-based index, the S&P/TSX Capped Composite Index.

The Dow Jones North America Select Junior Oil Index is a float-adjusted market capitalization weighted index that tracks the securities that are classified on the Industry Classification Benchmark as Oil & Gas Producers or Oil Equipment, Services & Distribution sectors.

The S&P/TSX Capped Composite Index is a broad-based index of the largest companies on the Toronto Stock Exchange. The S&P/TSX Capped Composite Index constituent securities must pass size and liquidity tests and be incorporated in Canada.

As of December 31, 2019

Listed CAD Units		1Yr	3Yr	5Yr	10Yr	Since Inception ⁽¹⁾
BMO Junior Oil Index ETF	%	(5.46)	(24.10)	(14.38)		(5.87)
Dow Jones North America Select Junior Oil Index	%	(5.02)	(23.65)	(13.93)		
S&P/TSX Capped Composite Index	%	22.88	6.89	6.28		

⁽¹⁾ Return from the performance launch date of May 19, 2010 to December 31, 2019.

A discussion on the relative performance of the ETF as compared to its benchmark index can be found under the Results of Operations section of this report. In light of the ETF's investment objectives and strategies, the ETF compares its relative performance to its benchmark index, as opposed to the broad-based index reference above, because its benchmark index provides a more accurate and useful comparison of fund performance.
