

# BMO Mortgage and Short-Term Income Fund (the "Fund")

For the six-month period ended March 31, 2015 (the "period")

Manager: BMO Investments Inc. (the "Manager" or "BMOI")

Portfolio manager: BMO Asset Management Inc., Toronto, Ontario (the "portfolio manager")

## 2015 Semi-Annual Management Report of Fund Performance

This semi-annual management report of fund performance contains financial highlights but does not contain the complete semi-annual or annual financial statements of the Fund. If the semi-annual financial statements of the Fund do not accompany the mailing of this report, you may obtain a copy of the semi-annual or annual financial statements at your request, and at no cost, by calling 1-800-665-7700, by writing to us at BMO Investments Inc., First Canadian Place, 100 King Street West, 43rd Floor, Toronto, Ontario, M5X 1A1 or by visiting our website at [www.bmo.com/mutualfunds](http://www.bmo.com/mutualfunds) or SEDAR at [www.sedar.com](http://www.sedar.com). You may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record and/or quarterly portfolio disclosure.

### MANAGEMENT DISCUSSION OF FUND PERFORMANCE

#### Results of Operations

During the period, the Fund's total net asset value increased from approximately \$1,182 million to approximately \$1,332 million. Series A units of the Fund returned 1.53%. Please see the *Past Performance* section for information on the performance returns of the Fund's other series.

During the first half of the period, the short-term part of the Government of Canada yield curve remained fairly steady while yields in the medium term of the curve decreased. The two-year Government of Canada bond traded around the 1.00% level and the five-year Government of Canada bond traded around the 1.50% level. However, when the Bank of Canada surprised the market in January with a 0.25% cut in its interest rate, the two-year Government of Canada bond fell from 1.00% to a mere 0.40%. By the end of the period, the two-year bond had recovered slightly, to approximately 0.50%. Similarly for the five-year Government of Canada bond, which started the period at 1.60%, fell to 0.60% and ended the period at approximately 0.76%.

The Fund's holdings were positioned with the expectation that yields along the curve would not rise, which contributed to performance. The Fund's mortgage and corporate bond holdings also contributed to performance as investors sought higher yields. At the beginning of the period, the Fund's interest rate sensitivity was positioned slightly lower than the benchmark's, which detracted from performance. The portfolio manager increased the Fund's interest rate sensitivity in light of persistently weak economic data and pressures from low oil prices.

The Manager confirms that the Fund did not borrow money during the period.

*For information on the Fund's performance and composition, please refer to the Past Performance section and Summary of Investment Portfolio section of this report.*

#### Recent Developments

The Canadian market continues to price in the possibility of a further interest rate cut in the coming year, responding to weak economic data, persistently low commodity prices and a strong U.S. dollar. Although the U.S. Federal Reserve Board continues to position the market for an interest rate increase in 2015, continued weakness in economic data raises the likelihood that such a hike may be delayed until 2016. Given the weak economic outlook, the portfolio manager believes the Fund is well positioned to benefit from an expected decrease in bond spreads as yields along the curve will not rise in the coming period.

#### *Significant Accounting Changes Resulting from our Adoption of IFRS*

Effective October 1, 2014, the Fund adopted International Financial Reporting Standards ("IFRS") as its basis of accounting. The semi-annual financial statements for the period ended March 31, 2015 are the first set of financial statements prepared on an IFRS basis. The adjustments made to reflect the impact of the change from Canadian generally accepted accounting principles ("Canadian GAAP") to IFRS are presented in note 8 to the financial statements.

Mutual Funds

# BMO Mortgage and Short-Term Income Fund

---

Key changes to the financial statements as a result of the implementation of IFRS are:

- Statement of Financial Position replaced the former Statement of Net Assets:
  - The Fund's unitholders investments in the units of the Fund did not qualify for equity classification under IFRS and have been classified as a financial liability for financial reporting purposes.
  - Classification of financial instruments: derivatives and short positions have been classified as held for trading while all other financial instruments have been designated as fair valued through profit and loss. Following adoption of IFRS by the Fund for financial reporting purposes, the Fund now fair values its investment securities traded on an exchange at close price, which is determined as the price within the bid ask range that represents the best estimate of fair value.
- Statement of Comprehensive Income replaced Statement of Operations:
  - The Fund accounts for interest income using the effective interest rate method, rather than the coupon method previously used under Canadian GAAP.
- Statement of Changes in Net Assets Attributable to Holders of Redeemable Units replaced the Statement of Changes in Net Assets and the Fund now presents a Statement of Cash Flows.
- Other notable changes to the financial statement notes include additional or enhanced information in the notes to the financial statements including a more detailed note and reconciliation on the Fund's transition from Canadian GAAP to IFRS.

## RELATED PARTY TRANSACTIONS

BMO Investments Inc., an indirect, wholly-owned subsidiary of Bank of Montreal ("BMO"), is the Manager of the Fund. From time to time, the Manager may, on behalf of the Fund, enter into transactions or arrangements with or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Manager (each a "Related Party"). The purpose of this section is to provide a brief description of any transaction involving the Fund and a Related Party.

### Portfolio Manager

The Fund's portfolio manager is BMO Asset Management Inc. ("BMOAM"), an affiliate of the Manager. BMOAM provides portfolio management services to the Fund. BMOAM receives from the Fund a management fee based on assets under management, calculated daily and payable monthly.

### Administration Fees and Operating Expenses

The Fund pays a fixed administration fee to the Manager in respect of each series other than Series I. The Manager in return pays the operating expenses of these series of the Fund, other than certain specified expenses that are paid directly by the Fund ("Fund Expenses"). Fund Expenses include interest or other borrowing expenses, costs and expenses related to the operation of the Fund's Independent Review Committee ("IRC"), including fees and expenses of IRC members, taxes to which the Fund is or might be subject, and costs associated with compliance with any new governmental or regulatory requirement introduced after December 1, 2007 (e.g., cost associated with the production of fund facts, filed in compliance with the relevant amendments to NI 81-101). Fund Expenses are allocated proportionately among the relevant series. If the Fund Expenses are specific to a series, the Fund Expenses are allocated to that series. The fixed administration fee is calculated as a fixed annual percentage of the average net asset value of each relevant series of the Fund. Separate fees and expenses are negotiated and paid by each Series I investor. Further details about the fixed administration fee and/or Fund Expenses can be found in the Fund's most recent simplified prospectus at [www.bmo.com/mutualfunds](http://www.bmo.com/mutualfunds) or [www.sedar.com](http://www.sedar.com).

### Buying and Selling Securities

#### *Related-Party Underwritings and Trades in Debt Securities with a Related Entity, Trading as Principal*

During the Period, the Manager relied on an approval and standing instruction provided by the Fund's IRC with respect to the following related party transactions:

- (a) investments in a class of non-government debt securities and/or equity securities of an issuer during the period of distribution of those securities to the public and/or the 60-day period following the distribution period where BMO Nesbitt Burns Inc., an affiliate of the Manager, acted as an underwriter in the distribution; and
- (b) trades in debt securities in the secondary market with BMO Nesbitt Burns Inc. who is trading with the Fund as principal; and

In accordance with the IRC's approval and standing instruction, in making a decision to cause the Fund to make a Related Party Transaction, the Manager, as Manager and portfolio manager of the Fund, is required to comply with the Manager's written policies and procedures governing the Related Party Transaction and report periodically to the IRC, describing each instance that the Manager relied on the approval and standing instruction and its compliance or

# BMO Mortgage and Short-Term Income Fund

non-compliance with the governing policies and procedures. The governing policies and procedures are designed to ensure the Related Party Transaction (i) is made free from any influence of BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc. and without taking into account any considerations relevant to BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc., (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund, and (iii) achieves a fair and reasonable result for the Fund.

## Distribution Services

The Manager markets and distributes the Fund through Bank of Montreal branches and/or (depending on the series) through registered dealers and brokers, including BMO InvestorLine Inc. and BMO Nesbitt Burns Inc., both affiliates of the Manager. The Manager pays to these affiliates a service fee called a “trailing commission” based on the average daily value of the units and/or shares that are held in investor accounts. This service fee is paid monthly or quarterly and varies by purchase option and by series.

## Management Fees

The Manager is responsible for the day-to-day management of the business and operations of the Fund. The Manager monitors and evaluates the Fund’s performance, pays for the investment advice provided by the Fund’s portfolio manager and provides certain administrative services required by the Fund. As compensation for its services, the Manager is entitled to receive a management fee payable monthly, calculated based on the daily net asset value of each series of the Fund at the maximum annual rate set out in the table below.

	As a Percentage of Management Fees		
	Maximum Annual Management Fee Rate <sup>2*</sup> %	Dealer Compensation %	General Administration, Investment Advice and Profit %
Series A Units	1.25	5	95
Advisor Series Units	1.25	45	55
Series F Units	0.35	0	100
Series I Units	—	—	—

\* For Series I Units, separate Series I fees are negotiated and paid by each Series I investor. Because the Manager pays no distribution, service or trailing fees on Series I Units, Series I Units will have lower Series I fees than the management fees for Series A Units.

## FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund’s financial performance for the periods indicated.

<sup>(1)</sup> This information is derived from the Fund's audited and unaudited financial statements. The financial information presented for the periods ended March 31, 2015 and September 30, 2014 is derived from the financial statements determined in accordance with IFRS. Information for periods prior to October 1, 2013 is derived from prior period financial statements presented in accordance with Canadian GAAP. An explanation of these differences can be found in the notes to the Fund's financial statements.

<sup>(2)</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

<sup>(3)</sup> Distributions were either paid in cash or reinvested in additional units of the Fund, or both. The allocation of the distributions from each of income, dividends, capital gains and return of capital is based on the Manager's estimate as at March 31 and September 30 of the period shown, which is the Fund's interim and financial year-end, respectively. However, the actual allocation of distributions is determined as at December 15, the Fund's tax year-end. Accordingly, the actual allocation among income, dividends, capital gains and return of capital may differ from these estimates.

<sup>+</sup> Operating expenses are paid by BMOII and management fees are paid directly to BMOII as negotiated with the investor.

<sup>(1)</sup> This information is provided as at March 31 or September 30 of the period shown, as applicable.

<sup>(2)</sup> Management expense ratio is based on total expenses (excluding commissions and other portfolio transactions costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

# BMO Mortgage and Short-Term Income Fund

<sup>(3)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. For all financial periods listed, no commissions or other portfolio transaction costs were incurred by the Fund. As a result, the trading expense ratio for all the periods was zero.

<sup>(4)</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## PAST PERFORMANCE

The Fund's performance information assumes that all distributions made by the Fund in the periods shown were used to purchase additional securities of the Fund and is based on the net asset value of the Fund.

The performance information does not take into account sales, redemption, distribution or other optional charges that, if applicable, would have reduced returns or performance. Please remember that how the Fund has performed in the past does not indicate how it will perform in the future.

The returns of each series may differ from one another for a number of reasons, including if the series was not issued and outstanding for the entire reporting period and because of the different levels of management fees and expenses allocated and payable by each series.

### Year-by-Year Returns

The following bar charts show the performance for each series of the Fund for each of the financial years shown and for the six-month period ended March 31, 2015. The charts show in percentage terms how an investment made on the first day of each financial year would have increased or decreased by the last day of each financial year.

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest in and the risks detailed from time to time in BMO Mutual Funds' simplified prospectus. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, BMO Investments Inc. does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
